

SUBSTANCES OF VERY HIGH CONCERN – REGULATION (EC) No 1907/2006 – REACH

OFFSET PRINTING BLANKETS

Printing blankets are classified as articles rather than substances, and as such fall outside the scope of current REACH regulations.

However, no products supplied by Flint Group Europe are formulated with Substances of Very High Concern (SVHC) (as per EC Regulation No.1907/2006) in concentrations above 0.1% as set out in the current candidate list first issued in 2008 and last updated June 14th 2023 and in the list of substances subject to authorization Annex XIV maintained and continuously updated by ECHA.
